

PRODUCT DATA SHEET

MX-60

DESCRIPTION

MX 60 is a water soluble, powerful, fast acting alkaline foaming cleaner containing biodegradable surfactants, grease cutters, and penetrants for efficient oil and grease removal. **MX 60**, being an extremely versatile product, can be used safely on most surfaces and for a variety of applications. MX60 was designed to handle any grease, oil and soil problems that exist in any form of industrial plant.

METHOD OF USE

MX 60 can be applied by hand, or with foaming/high pressure equipment.

MX 60 can be diluted 20-50mls per litre (2-5 %) preferably with water (ideally 50°C) depending on the severity of soil to be removed.

For Heavy duty degreasing:

Dilute 1:1 to 1:3.

1. Apply to soiling.
2. Allow time for the product to penetrate oil or dirt.
3. Agitate with a hard brush/broom if possible.
4. Ideally rinse with high pressure.
5. Use warm water to increase product efficacy!

USES

MX 60, being an extremely versatile product, can be used safely on most surfaces for removing a wide variety of soils.

Use to clean forklifts, greasy equipment, exhaust fans, lathes, industrial carbon and soot, workshops, wash bays, tool & die equipment etc. MX-60 is food safe so safe to use in kitchens, and on catering equipment.

MX 60 can be applied by high pressure foamers and steam cleaning equipment, or simply by hand with the aid of a cloth, mop or brush.

MX-60 is a quick break degreaser that was specifically designed to lift oil, grease and other hydrocarbon soils, and then release the oil again so that it can be more efficiently separated in an oil separator. This leaves behind wastewater that contains little or no toxic hydrocarbon content.

BENEFITS

- Contains no phosphates, harsh alkalis or inorganic acids
- Readily Biodegradable
- Economical – concentrated formula
- Excellent for greasy and oil soils
- Non-corrosive and non-toxic
- High Foaming
- Free rinsing

SAFETY PRECAUTIONS

SKIN	Wear Gloves for protection. Wash with soap and water.
EYES	Remove contact lenses. Flush with water or saline for 15min
RESPIRATORY	Wear a respirator 'organic gas' when using product

CAUTION

MX60 contains surfactants, and so although it will biodegrade fairly quickly, it does pose a hazard to aquatic life so extra caution should be taken when utilized near waterways.

If a spill should occur, immediately consult a registered waste management company and dispose of according to municipal by laws.
